

Many organizations rely on suppliers and contractors to provide the equipment, supplies, and services required for daily operations. Often these relationships involve multiple points of contacts and unique access requirements that can sometimes cause administrative bottlenecks.

e-VERIFILE.COM™ can help quickly screen contractors, vendors and their employees to insure that they meet your organization's standards.

Our suite of On Demand screening solutions enables managers to easily search and verify background information using a simple "point and click" process:

- Professional License Verifications
- Reference Verifications
- Nationwide Civil/Criminal Searches
- Credit Reports
- Motor Vehicle Reports
- Government Watch Lists

Whether your need is specific or requires an end-to-end solution, **e-VERIFILE.COM™** offers an array of proprietary Custom Solutions that can minimize redundant tasks associated with routine contractor/vendor management processes:

Contractor/Vendor Enrollment & Screening Systems

Automated solutions that help collect and screen contractor/vendor registration forms and related information.

Contractor/Vendor Data Management

Automated solutions and search tools that help organize, grade and track important information on contractors and vendors.

Custom Compliance Management Solutions

Online solutions that enable organizations to administer orientations, surveys and training to ensure that contractors and vendors are in compliance with organizational policies and industry regulations.

Access Control Credentialing

Maintain and manage security access control via support solutions that help produce, issue and document customized I.D. Badges for Contractors, Vendors and their employees.

Reduce administrative burdens associated with your routine risk assessment tasks. Visit www.e-verifile.com to get started!
