## PRESS RELEASE

### Finding the RITE Talent is easy with TalentRITE<sup>SM</sup>

#### FOR IMMEDIATE RELEASE:

**ATLANTA- April 01, 2008** – Atlanta-based **e-VERIFILE.COM Inc**, today launched **TalentRITE<sup>SM</sup>**---a fully automated solution that will help organizations simplify day-to-day talent management tasks.

TalentRITE was designed to help busy HR and resource administrators streamline their routine talent acquisition and processing efforts, by allowing them to quickly create, post, and pre-screen employee applications and contractor registration forms.

The web-based solution requires no additional equipment or software and can be accessed securely from any PC at anytime. Use of TalentRITE requires a subscription to e-VERIFILE.COM. Subscription is easy, fast and is **FREE**.

As a subscriber, employers can simply login to e-VERIFILE.COM, and request that TalentRITE be added to their account. Subscribers can choose from the **DIY( Do-It -Yourself) version** of TalentRITE to quickly create their own custom applications/forms or the **Enterprise version** whereby e-VERIFILE.COM will work with the subscriber to build a custom TalentRITE solution that meets their unique requirements.

Both versions will generate links to the applications/forms created by the employer through the TalentRITE system. These links are posted on the employer's website where interested applicants can access, complete, and submit the applications/forms online.

Submitted applications are automatically pre-screened as per the employer's criteria and are available for review by the employer from the **TalentRITE User Interface (UI)**. Employers can further augment the power of TalentRITE by adding additional e-VERIFILE Solutions such as **On Demand Background Checks, Automated Applicant scoring, Custom Adverse Action Notifications** and more.
